

## **FS ITALIANE REGAINS 100% OWNERSHIP OF CENTOSTAZIONI**

- **the deal to buy back the remaining 40% holding belonging to Archimede 1 was closed today**
- **Renato Mazzoncini, CEO and General Manager of FS Italiane, and Monica Scarpa, President of Archimede 1 and CEO of Save, were present**
- **the transaction, authorized by the Italian Competition Authority (AGCM), is worth 65.6 million euros**
- **the FS Group will once again be managing more than 600 stations**

Milan, 30 January 2017

From today, FS Italiane will once again own 100% of Centostazioni.

The process of buying back the 40% holding owned by Archimede 1 (Save Group) was concluded with the return and transfer of the stock to FS Italiane.

The deal was closed in Milan in the presence of **Renato Mazzoncini**, CEO and General Manager of FS Italiane, and **Monica Scarpa**, President of Archimede 1 and CEO of Save.

The operation, authorised by the Italian Competition Authority (AGCM), was carried out by FS Italiane with a payment of 65.6 million euros.

*Renato Mazzoncini commented that “For FS strategies this is a decisive step towards creating a network of Smart Stations, more than 600 stations managed by a single owner, which is destined to become the beating heart of a system of integrated mobility infrastructures and services, as set out in our 2017-2026 business plan”.*

The stations will thus become intermodal hubs with bus terminals, parking lots, car rental, car/bike sharing and electric car charging points, capable of offering useful accessory services and new functions, from temporary office space to start-up incubators.
