

**Resolution n. 70/31-10-2014 of the Independent Transport Authority on regulation of railway infrastructure access**

On November 5th, the Italian Independent Transport Authority released the decision on the regulation of railway infrastructure access.

It has been resolved as follows:

- a) Adoption of measures for the fair and non -discriminatory access to rail infrastructure.
- b) Start of the process for the establishment of criteria for determining the toll for the use of railway infrastructure.

At the following link it is available the resolution statement and the related document on the approved regulation measures.
