

**Chiara De Gregorio** was born in Palermo on May 7, 1973. She earned a degree in civil engineering at the University of Palermo obtaining the qualification to practice the profession in 1998.

After a year of experience in a maritime hydraulics studio, in 1999 he joined the Ferrovie dello Stato Infrastructure Division, which later became Rete Ferroviaria Italiana (RFI).

She immediately worked in the investment sector, starting with design, construction management, project management and testing activities.

In RFI, in 2005 she became Project Controller in the investment management process, becoming Project Owner acquiring a managerial role.

Member of the Environmental Observatory of the Florence node, from 2008 to 2018, representing Ferrovie dello Stato, she has been Project Manager for the investments of the Tuscany Region since 2016 and, in March 2020, assumed responsibility for the Level Crossings Suppression department and Acoustic Rehabilitation Programs on the entire national network. Since December 2022, she has been responsible for the RFI Investment Department's Centre Area.

Also in the field of investments, during the years spent in the company, she has held the role of president of the Tender Commission several times, including for the Telese - San Lorenzo - Vitulano della Napoli - Bari lines and Taormina - Giampilieri lot no. 2.

In October 2022, she acquired the certification of Company Coach and started the coaching experience for Ferrovie dello Stato.

Her attention to social issues led her to become a volunteer for the Italian Red Cross since 2008, as well as a 118 rescuer and Civil Protection officer.
