

FRECCIAROSSA PARIS–LYON–MILAN: ALL THE INFORMATION, PRICES AND TIMETABLE

- **comfort for all kinds of passenger and for all pockets**
- **a wide range of services, from the Freccce Portal to the bar area and Easy Bistro**

The Frecciarossa that is being used in France offers four service levels, so a journey can become a time for relaxation, to meet and learn, for people who want to make best use of their time, in an exclusive environment that focuses on safety and sustainability.

- The Executive Comfort Class, for an exclusive travel experience
- The Business Comfort Class, the ideal journey for business or pleasure
- The Standard Comfort Class, for the comfort of high-speed travel, at a good price
- The Meeting Room, to work in peace. Separate and isolated, it is perfectly equipped and can house up to five passengers.

The Business and Standard service levels offer carriages for various kinds of passenger: the *Silenzio (silence)* area, and the *Allegro (lively)* area. The former allows passengers calm, without any noise, while the latter is for those who want to take advantage of the trip to chat freely with colleagues, friends or family.

So as to best meet the needs of everybody who chooses to use Trenitalia, the Frecciarossa trains offer passengers a wide range of services which complete this new high-speed experience, whether they are looking to work, to get information, enjoy themselves, eat or simply rest. And not just that. The carriages are fitted with flat screens and free Wi-Fi. Fast and stable connection is guaranteed.

The entertainment portal, *Portale Freccce* gives access to newspapers, magazines, books, games and music. Passengers can also use it to order a meal or snack. While in the bar area, they can find a menu made from high-quality products.

But there's more. Passengers can benefit from a made-to-measure service – with food delivered at a time they have chosen in advance. This option - *EASY BISTRÒ* – can be reserved on board using the *Portale Freccce* and by asking the restaurant staff. The best of Italian cooking had to be present, with the specially-designed dishes from award-winning chef Carlo Cracco that make eating on Frecciarossa an essential part of Italian gastronomy.

The travel experience becomes unique, not least because of a range of prices within everybody's reach, and some special prices for carers working with disabled people, group trips and pets.

Travelling on the Frecciarossa is very flexible. Tickets can be changed an unlimited number of times, free of charge (subject to making up any difference in the price currently

charged), up to an hour before departure. They can also be cancelled right up to scheduled departure time, and are reimbursed, less 20%.
