

Aldo Isi, a graduate in Civil Engineering from the University of Parma, began his career with Ferrovie dello Stato Italiane Group in 1999, in Bologna, with design and Works Management assignments in the Track Equipment and Civil Works sector of Rete Ferroviaria Italiana SpA.

And at RFI SpA, he held several positions of increasing responsibility, first in the Civil Engineering area and later in the Safety area. In 2009, he took over the management of the Emilia Territorial Unit - Maintenance and Operations, and in the same year he obtained a Master's degree in Industrial Maintenance Management.

From 2011 to 2014 he was Head of the Production Department in Bologna, and from 2014 to 2016 he was Head of the Production Department in Milan.

February 2016, he was appointed Investment Director of Rete Ferroviaria Italiana, based in Rome, in charge of managing the decision-making process related to the investment implementation cycle, the design, construction and commissioning of all new conventional and high-speed railway lines and rolling stock maintenance facilities, and upgrading of the existing infrastructure and its technological equipment.

In December 2018, Aldo Isi was appointed CEO and General Director of Italferr SpA, an engineering company belonging to FS Italiane Group.

In November 2021, he became a member of Agens (Confederal Agency for Transport and Services) General Council.

From December 2021 to March 2025, Aldo Isi was Managing Director and General Manager of Anas SpA.

In March 2025, he was appointed CEO and General Manager of Rete Ferroviaria Italiana SpA.
