

**Vincenzo Macello** was born in Genoa on September 6, 1966. He earned a degree in Electronic Engineering in 1992 from the University of Genoa and, having fulfilled his conscription obligations as Officer of the Army Technical Corps, began his career in 1993 in the Ferrovie dello Stato Engineering and Construction area.

In 1995 he joined Italferr as a designer of technological systems for the supervision and diagnosis of railway traffic, and then joined the Rete Ferroviaria Italiana (RFI) Technical Department in 2000 as Head of the first realizations of the new integrated traffic management systems (SCC systems).

His career in RFI continued in Maintenance Management, first in 2003 as Head of the design and implementation of the renovation and enhancement of the Technological plants for the Lombardy Region and then, in 2008, in the role of Maintenance Manager in efficiency of the Lombard infrastructure.

Since 2009 he has been responsible for the Technological Projects of the North within the RFI Investment Department for the realisation of the technological enhancement of the Turin - Padua line. In 2013 he joined the RFI Production Department, first as Head of the Territorial Production Department in Liguria and then, since 2016, as Head of the Territorial Production Department in Lombardy.

In 2018 he became head of the RFI Human Resources and Organisation Department and in the same year, in December, he assumed the position of Head of the Investment Department which guarantees the decision-making process related to the investment cycle in RFI, also defining times and costs, and ensures the implementation of the Investment Plan within the framework of the National Recovery and Resilience Plan (PNRR). Since July 2022, he has headed RFI's Deputy General Directorate Network Management Infrastructures whose mission is to ensure the implementation of the Company's business and development policies, maximising industrial synergies and process efficiency.

He is also president of the logistics and transport section of Confindustria Genova.
